BUILT FOR BEHAVIORAL HEALTH

Dash® is built around the complexity of your behavioral health organization, with enterprise-grade configuration that **supports multiple locations, time zones, and provider types** from full-time therapists to part-time specialists. Patients can search by singular or multi-visit reasons and be guided to the right provider and appointment type, **reducing friction and ensuring every booking is clinically appropriate**. Whether booking online, through your contact center, or automated Voice AI, Dash keeps the experience **consistent, accurate, and tailored** to your organization's unique workflows and population needs.

“Dash® lets patients schedule on their own timeline and comfort level. On our side, the back-end complexity is gone. We can see more patients without adding operational burden to get there.”
